PROFESSIONAL SUMMARY

Second-year Computer Engineering student at Universidad Católica del Uruguay, focused on back-end and full-stack software development. Proficient in C#, Java, .NET 8 and Python, with working knowledge of version control (Git/GitHub), object-oriented programming, data structures and algorithms. A problem-solver with hands-on technical experience in demanding live environments where troubleshooting under pressure is critical. Seeking a first software development role to apply and grow these skills, contributing commitment, adaptability and teamwork.

TECHNICAL SKILLS

Programming Languages

C#

Java

Python

Frameworks & Platforms

.NET 8

Tools & Version Control

Git

GitHub

Foundations

Data Structures & Algorithms

Problem Solving

EDUCATION

B.Sc. in Computer Engineering — Universidad Católica del Uruguay 2nd year, in progress
Coursework in software development, algorithms, data structures and systems architecture.

Sound & Music Production Technician — Instituto de Música y Sonido "La Zapada"

EXPERIENCE

Event Technician — Nandina Audio, Iluminación y Video 2022 – Present

- Setup, configuration and operation of complex technical systems for live events.
- Real-time video production software operation (vMix).
- Diagnosed and resolved technical issues under pressure, ensuring service continuity.
- Coordinated with multidisciplinary teams to meet demanding deadlines.

Technical Event Production — Freelance 2022 – Present

- Provided technical services for various clients at live events.
- Independently managed tasks, schedules and client relationships.

SKILLS

Teamwork

Adaptability

Problem Solving

Fast Learner

Organization & Responsibility

LANGUAGES

• Spanish — Native • English — Intermediate / technical
